

# MIKS Coin

**NEXT GENERATION  
BORDERLESS TRANSACTIONS**

# Our Mission

To deploy the world's foremost cashless, borderless virtual currency solution that connects residents at home and abroad with merchants, content creators and each other, thereby promoting enhanced lifestyle experiences, greater business synergies and robust economic growth.

# 2,400,000

Philippine citizens live and work overseas, sending money home...

The background of the infographic is a dark blue field filled with various data visualization elements. A map of the Philippines is prominently displayed in the center-right, rendered in a light blue color. Surrounding the map are numerous semi-transparent icons and charts, including bar graphs, line graphs, pie charts, and hexagonal icons containing symbols like people, gears, and currency. A network of white lines with small blue dots at the intersections is overlaid on the entire scene, creating a digital or technological feel. The overall aesthetic is modern and data-driven.

# \$35.1 BILLION

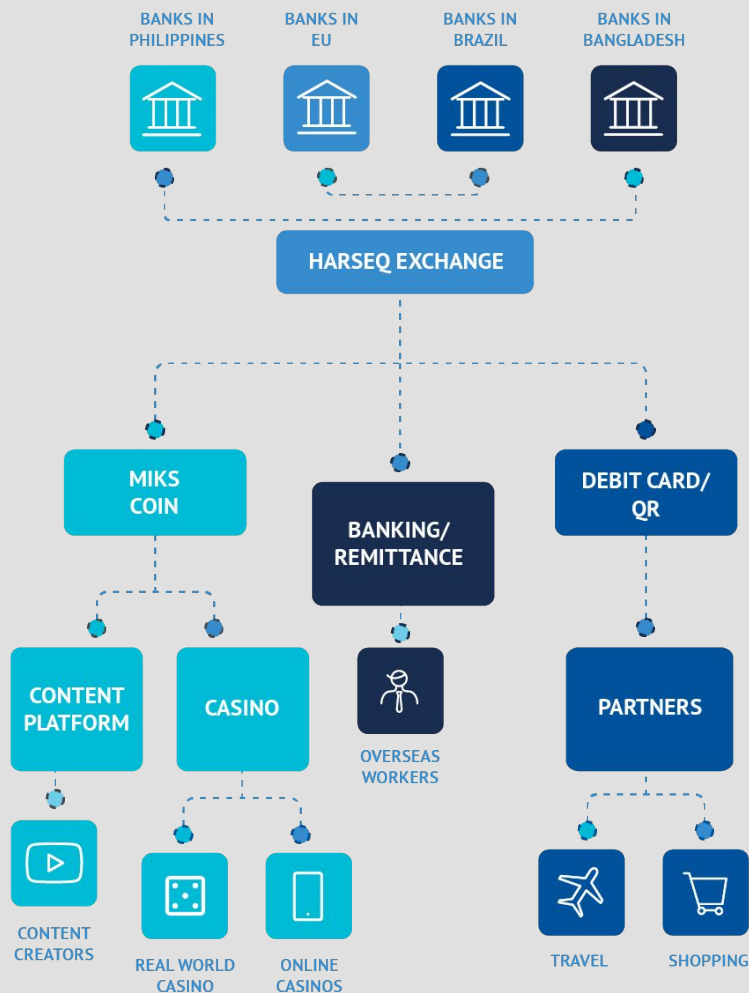

Foreign remittances received in the Philippines in 2019,  
accounting for...

# 10.2%

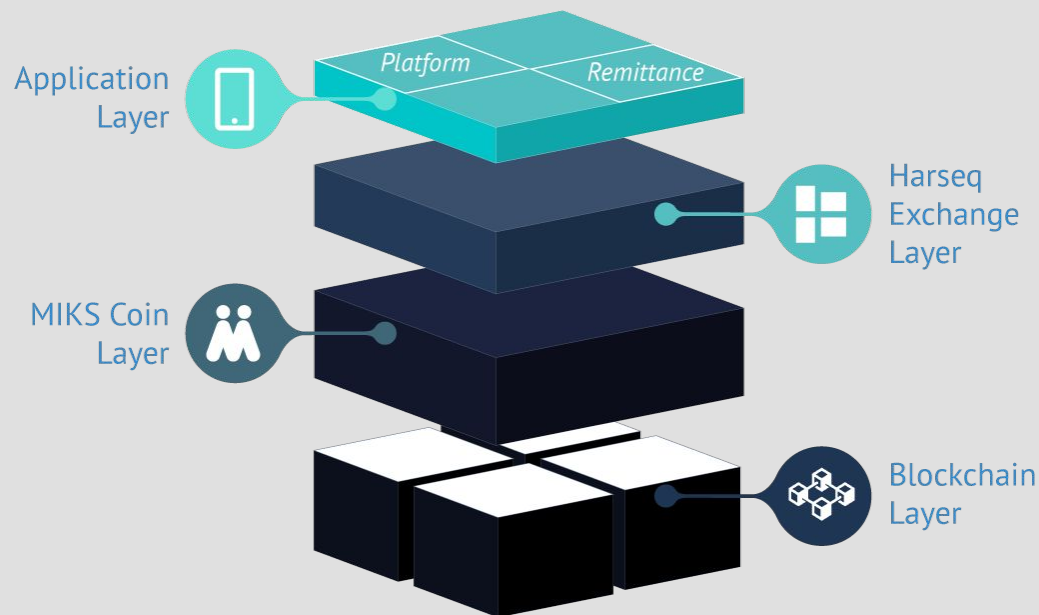

Of the Philippine GDP

# MIKS Coin Flow

MIKS is a blockchain-based  
cashless, borderless, peer-to-peer  
technology for overseas remittance,  
fintech, travel and entertainment.

- Make payments with QR code

# Foreign Remittance

MIKS Coin facilitates remittance between overseas foreign workers and their family back home.

Our powerful blockchain payment system completely cuts out all banks, middlemen and intermediaries.

# Overseas Workers

Say goodbye to outrageous transaction fees and long waiting periods. With MIKS Coin, workers overseas can instantly send money back home and their families receive it right away, with no bank and no hassle.

The left side of the slide features a vertical image of the Philippine flag, showing the white upper half with a golden sun and three stars, and the red lower half. The background of the entire slide is dark grey. The top-left corner of the image is decorated with a bokeh effect of warm, out-of-focus lights in shades of orange, yellow, and red.
